This information is intended to provide you with information about the Maxam Diversified Strategies Fund. The Maxam Diversified Strategies Fund is only available to accredited investors and investors who meet other applicable exemptions. ²Subject to manager discretion, accredited investor status, applicable securities offering exemptions. ³Series A Units, net of fees and expenses; Inception: 01-Jul-2009; ⁴Annualized; ⁵Upside Capture Ratio is a measure of the fund's performance in up markets relative to the S&P/TSX TRI. Downside Capture Ratio is a measure of the fund's performance in down markets relative to the S&P/TSX TRI. A negative downside capture number means that the fund's return during the time period was positive. ⁶Fund Statistics are calculated relative to the S&P/TSX TRI, S&P/TSX Small Cap TRI and Scotiabank Canadian Hedge Fund Index (equal weighted); Risk free rate used is 1.75%. Series A performance is detailed because it reflects the fund's longest track record. The performance fee on Series A units are subject to a 5% annualized hurdle. Important information about the Fund is contained in the Offering Memorandum which should be read carefully before investing. You can obtain an offering memorandum from Maxam Capital Management Ltd. The Offering Memorandum for the Maxam Diversified Strategies Fund does not constitute an offer or solicitation to anyone in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. An investment in one of our funds is speculative and high risk. We assume no obligation to update the information in these documents. The indicated rates of return are the historical compounded returns for the period indicated, including changes in security value and the reinvestment of all distributions and do not take into account income taxes payable that would have reduced returns. The fund is not guaranteed; its values change frequently and past performance may not be repeated.
