Disclosure and additional information.

This information is intended to provide you with information about the Maxam Diversified Strategies Fund. The Maxam Diversified Strategies Fund was offered via Offering Memorandum prior to August 24, 2022 and thus was not a reporting issuer, the expenses would have been higher during such period had the Fund been subject to the additional regulatory requirements applicable to a reporting issuer. Prior to becoming a reporting issuer the Fund was not subject to the investment restrictions and practices in NI 81-102. Performance shown is for Class X units, net of fees and expenses because it reflects the longest track record. The performance fee on Class X units are subject to a 5% annualized hurdle. Fund inception: 01-Jul-2009; Periods longer than one year are annualized unless noted. ¹Fund Statistics are calculated relative to the S&P/TSX TRI and the Scotiabank Canadian Hedge Fund Index, Equal Weighted - note that Scotiabank performance is as at January 31, 2025, the most recent data available. Upside Capture Ratio is a measure of the Fund's performance in up markets relative to the S&P/TSX TRI. Downside Capture Ratio is a measure of the Fund's performance in down markets relative to the S&P/TSX TRI. Capture Ratio is the Upside Capture Ratio divided by the Downside Capture Ratio. "Fund Correlation" measures the Fund's relationship to a selected index or benchmark. Maxam Capital Management Ltd. is the manager for the Maxam Diversified Strategies Fund. Important information about the Fund is contained in the Fund's Simplified Prospectus, which should be read before investing. This presentation is neither an offer to sell securities nor a solicitation to sell securities. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Any indicated rates of return are the historical annual total returns including changes in value and reinvestment of all distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. This document is not intended to provide legal, accounting, tax or investment advice.
